Australia

CAPABILITY STATEMENT
About Golder

Across the globe, companies and governments are creating the world of tomorrow. They are building vital infrastructure, developing projects, restoring landscapes and renewing their economies with sustainability in mind.

Golder is an employee-owned, global organisation providing consulting, design, and construction services in our specialist areas of earth, environment, and energy through technical excellence, innovative solutions and award-winning client service.

Employee owned since being founded in 1960, our more than 7,500 people operating from 155 offices worldwide deliver deep technical understanding, cross-disciplinary thinking and a passion to help our clients succeed. Our clients represent the world’s major industries and drivers of development: Oil and Gas, Mining, Manufacturing, Power, and Infrastructure.
Golder in Australia

Operating in Australia since 1972, we bring a wealth of local knowledge and experience to our clients’ projects, as well as an enthusiastic and energetic approach to all we do.

We deliver engineering and environmental services to a wide range of projects in the transport infrastructure, mining, oil and gas, power and manufacturing sectors. Our team of experts address our clients’ needs for geotechnical and structural engineering, from site investigation, to design and construction, utilising the latest digital engineering tools.

From renewable energy and waste to government and defence, we are working on environmental assessments, remediation, regulatory compliance, landfill design, permitting and environmental compliance to create resilient and sustainable outcomes aligned to our clients’ vision.

Our technical strengths are complemented by strong focus on putting our clients front and centre. We understand our clients’ commercial realities and help them meet their strategic goals through our work. As a winner of 29 Client Choice Awards, our client focus has been consistently recognised over many years.

Golder is committed to developing stronger connections with Aboriginal and Torres Strait Islander communities and organisations, and to supporting employment opportunities in Australia. Our Reconciliation Action Plan formalises this commitment and provides a framework to help us bring it to life across our business operations.

We have a team of over 850 people working across seven offices and three NATA accredited laboratories, ready to thrive on challenges in your next project.

Benefits of working with Golder

Our global reach

With employees worldwide in offices in Africa, Asia, Australasia, Europe, North America and Latin America and clients on six continents, we bring the global expertise and experience you need to solve your most complex problems.

Our commitment to sustainability

Golder is committed to promoting sustainable communities and responsible development by embedding the principles of sustainability into project planning, design, execution, and operation, and by delivering products and services for sustainable development.

Moreover, we are committed to conducting our business and operations in a manner that has a positive impact on the communities in which we live and work. Our sustainability relies on using resources prudently, reducing our environmental footprint, and supporting a better quality of life for people around the world.

Our commitment to health and safety

At Golder we care about the health and safety of our people, our business partners and contractors, and our clients. Caring is quite simply at the core of our culture. We make it a priority every hour of the day to ensure our people are working and living in a way that keeps them, their families and their communities safe and healthy. We extend this caring to our contractors, vendors and clients in every project we undertake.

Our dedicated people

As an employee-owned company, our people are truly invested in, committed to, and are the primary beneficiaries of, Golder’s success. This commitment sets us apart in every aspect of what we do. Our clients know they are working with people who own the business and the outcome. Our passion, expertise and level of commitment are, and always will be, our most valuable assets.
